

Assessment Item – 10

Satya sells milk in a near-by village. Today a total of 1200 litres of milk was received. He has the following containers of 5 litres, 2 litres, 1 litre, 500 ml, 250 ml and 100 ml.

$$1 \times 10 = 10$$

Name of villagers	Milk required (quantity)	Containers Required
Ram	2 $\frac{1}{2}$ litre	2 litre, 500 ml
Dayal	5 $\frac{1}{4}$ litre	
Pappu	$\frac{3}{4}$ litre	
Farooq	3 $\frac{1}{4}$ litre	
Gurmukh	4 $\frac{1}{2}$ litre	
Deepak	4 litre 250 ml	
Anita	3 litre 750 ml	
Ruchi	5 litres	
Ahmed	2 $\frac{1}{4}$ litre	

Learning Outcome– we learnt how to measure 1 litre, $\frac{1}{2}$ litre, $\frac{1}{4}$ litre and use addition, subtraction, multiplication in daily life.
