6. Read and mark (✓) for correct or (×) for incorrect:

2 x 6 = 12

Plastic bags are everywhere today. They are easy to carry, but they have harmful effect on the planet. Plastic does not die away in soil. When we throw out plastic, animals like cows, dogs, and fish may think that it contains food and eat it. If they eat the plastic, they may get sick or lose their life. We can help the environment by using our own cloth bags. We should say no to plastic bags. By using less plastic, we can keep nature clean. This will make sure our planet stays safe for the future too.
