

Worksheet - 120**Donation account -**

In the temple, the donation amount was accounted for every fifteen days. When fifteen were completed, on the sixteenth day the trust members asked the priest how much donation he received each day, to which the priest replied that on the first day, he received Rs 3; on the second day, twice that amount; on the third day, twice the amount of the previous day, and so on — the donation doubled each day.

Follow the same procedure to calculate the daily amount and fill in the blanks. Calculate the total amount as well.
