

Worksheet 124

Prabhas wants to do a comparative study of different crops grown in his field. Help Prabhas in making the comparison based on the data given below.

- ☞ Look at the chart above and tell which crop had the highest yield?

- ☞ Look at the chart given above and tell which crop had the lowest yield?

☞ Look at the chart above and tell which was the second largest crop produced?

☞ Look at the chart above and tell which was the third largest crop produced?

We have learnt- Understanding the data displayed in the diagram.
