

Worksheet 56

Multiplication Facts

Remember:

Commutative Property for Multiplication: The product remains the same even if the order of the factor numbers are interchanged.

Example: $4 \times 3 = 12$ and $3 \times 4 = 12$

1. Solve the questions

$3 \times 5 = 15$ and

$8 \times 6 = 48$ and

$9 \times 4 = 36$ and

$7 \times 9 = 63$ and

$6 \times 7 = 42$ and
