Dr. Pratima Kumari is working as Associate Professor in Department of Education in Social Sciences, NCERT New Delhi. She has been expert in Economics in many live interaction programmes of MHRD-GOI Channel SWAYAM PRABHA. She contributed in development of Learning Outcomes at the Elementary and Secondary Stage in Social Sciences, which is now a part of RTE Act. She contributed in School Based Assessment module of National Initiative for School Heads and Teachers Holistic Advancement

(NISHTHA). She contributed in Economics textbooks of NCERT at Senior Secondary Stage. She coordinated; contributed in many PAC approved programmes and come out with valuable teaching-learning materials such as Package on Teaching-Learning of Economics in Inclusive Education Setting for Senior Secondary Teachers, Teaching-Learning of Economics with Case Method for Senior Secondary Teachers and Sourcebook on Assessment in Social Sciences at Secondary Stage. She has been Resource Person in Economics for Capacity Building programmes of KRPs in Question Setting of different boards of India, Master Trainer's programmes of KVS, NVS and other schools, orientation programmes of Tribal Areas' teachers of Madhya Pradesh etc. She worked as Academic Editor of Journal Indian Educational Abstracts and Survey of Research in Education, NCERT, New Delhi. She contributed to Educational Innovation, Design of new curricula and courses and technology-mediated teaching learning process since 1999 till now. She contributed in analysis of responses of different stakeholders of education on Draft New Education Policy.

Besides, she has been associated with Government's flagship programme "Samagra Shiksha Abhiyan" National Achievement Survey (NAS-2017) for Classes III, V, VIII primarily focuses on identifying the areas of interventions for realizing the goals of quality education along with assessing the attainment of the competency based learning outcomes of students studying at primary and elementary stages of education in government and government-aided schools. She has also been associated with NAS-2018 for Class X Cycle 2 to provide information about the achievement of students studying at Secondary stage in government and private schools. She contributed in development of National Reports on NAS findings for classes III, V, VIII and X. She has participated in workshops for Advanced Analysis of Background Variables using NAS Class X Cycle 1 data including two week workshop on Large Scale Assessment organized by NCERT. She has also participated in workshops on Technical Support in Analysis and Dissemination of existing NAS Class V Cycle 4 data organized by NCERT. She has participated in South Asia Regional Conference on Using Large Scale Assessments to Improve Teaching & Learning at New Delhi. Besides this, she has been associated with Implementation of the National Talent Search Scheme.

She presented research papers in International Conferences and published in peer reviewed UGC approved national and International Journals.

7. Future Plan

She would like to do research in the field of economics education so that can contribute more effectively in the revision/ updating of Economics syllabus and Economics textbook writing. She wants to work closely with the students so that can have better insight towards the economics teaching and may be able to contribute in revision/new textbooks writing and train the teachers for adopting new methods of teaching for implementing the National Curriculum Framework 2005 guidelines/New Education Policy.
