

Dr. Srivastava, Professor and Dean (Coordination), NCERT, has experience of about 25 years of active service which includes, as Lecturer in Statistics(1993-2001) at Mahatma Gandhi Chitrakoot Gramoday Vishwavidyalaya; Reader in Educational Statistics (2001-2006) and Professor of Educational Survey (2006 onwards), at NCERT. His experience as Lecturer in Statistics includes teaching courses in statistics to undergraduate and postgraduate students of Science, Engineering, Agriculture, Rural Development and other streams. His experience at NCERT includes addressing issues and activities pertaining to planning, conduction, management, output and dissemination of country-wide large scale studies/surveys for school education. He has experience of active policy level engagements with state governments and agencies in the area of school education and large-scale assessment surveys under SSA and RMSA. As part of country wide training, he provides academic support in conducting National and State level training programmes for state and district level educational administrators. He has served as Head of the Educational Survey Division (ESD) of NCERT and was also involved through projects of the department, in exploring the options for addressing issues of delay, uniformity and quality in education statistics being produced at national level. He has been conducting as well as delivering resource lectures in training programmes for capacity building in Statistical Methods, Sampling Techniques, Research Methods and Data Quality Management; and has been planning the course outline and developing the training manual. Dr. Srivastava has done all his university education from Banaras Hindu University and earned B.A. (Hons.) in Statistics, M.A. (Statistics) and a Ph.D. in Statistics.
