NATIONAL COUNCIL OF EDUCATIONAL RESEARCH AND TRAINING
Educational Survey Division

The Expression of Interest (EOI) for assessment of NTS Scheme

The National Talent Search Scheme is a flagship programme of the National Council of Educational Research and Training (NCERT). The programme was launched in 1983 for identification of talented students and awarding them with scholarships. Initially the scheme was known as National Science Talent Search Scheme and later in the year 1976, apart from basic sciences, the scheme was extended to social sciences, engineering and medicine. Every year, about 1000 scholarships are awarded after conducting two-level written examination. The final awards are made on the basis of performance in Mental Ability Test (MAT) and Scholastic Aptitude Test (SAT). At the first level examination, every State/UT has a specified quota computed proportionately on the basis of student enrollment at secondary level. The candidates selected at the first level through MAT and SAT and Language test undergo a similar test conducted by NCERT at National Level. The scheme has evolved over a period of time with many additions and deletions in the selection process. Reservation of 15% for SC and 7.5% for ST candidates is provided under the scheme. The awardees studying in basic and social sciences including commerce are eligible to receive scholarship up to Ph.D. level whereas the awardees studying professional courses in medicine, engineering, technology and management are eligible to receive scholarship up to second degree level subject to fulfillment of conditions.

The NCERT is interested in carrying out a third party evaluation of the programme and in seeking Expression of Interest (EOI) proposals from relevant institutions and organizations of repute who would be willing to undertake such assessment study in a broad manner. Interested institutions and organizations may please apply with the following information.

1. Name and address of the institute or organization.
2. Programmes/projects undertaken during 3 years in the concerned field.
3. Concept paper (in 2-3 pages) on methodologies to carry out the proposed assessment study including estimated cost of proposed assessment study.
4. Details of human resources available to conduct the study and the CV of key persons.
5. Financial statement for the last 3 years and income-tax/service tax registration (for NGOs and company sectors)

Interested institutions/organizations may apply (with complete information) to the Secretary, NCERT, 1st Floor, Zakir Hussain Block, NCERT, Sri Aurobindo Marg, New Delhi-110016 within a month. The Council reserves the right to reject or accept any or all application without assigning any reason.
