

Dr Chintan Vaishnav is the new Mission Director for Atal Innovation Mission (AIM), a flagship initiative of the Government of India under the auspices of NITI Aayog. Prior to joining AIM, Dr Vaishnav was the Academic Director of the Tata Centre for Technology and Design at the Massachusetts Institute of Technology, USA

Dr Vaishnav holds a PhD in technology, management, and policy from MIT and his career since in research, teaching, and action spans technology, development, and policy. As a teacher, innovator, and entrepreneur, he has first-hand experience of the various parts of the innovation ecosystem, both in India and the US. Over the past decade, he has split his time between teaching and research at MIT and living and working with rural communities in India to build solutions that can overcome constraints fundamental to improving human conditions. He has co-founded both commercial and non-profit organizations. He has also advised start-ups, corporations, and governments on tackling challenges at the intersection of technology and systems, development, and public policy.
