

Nagarajan Rajagopal

I am Rajagopal, founder and CEO of Vembi Technologies Private Limited. We are a start-up based in Bengaluru working on assistive technologies for visually impaired. I have more than two decades of experience in product companies like Wipro, Mindtree and Ametek instruments in product development management and general management. Before founding Vembi, I headed global engineering group in American multinational ametek and tech lead in vision empower a non profit focusing on stem education for visually impaired.
